DETAILED ACTION

1. This office action is in response to application 10/769,510 and amendment filed on 12/3/2007. Claims 1-5, 7-12 and 21 remain pending in the application, where claims 6 and 13-20 are canceled.

Terminal Disclaimer

2. The terminal disclaimer filed on 2/13/2006 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of the patent [6,751,783] has been reviewed and is accepted. The terminal disclaimer has been recorded.

EXAMINER'S STATEMENT AS TO THE REASONS FOR ALLOWANCE

3. Claims 1-5, 7-12 and 21 are allowed over the prior art of record.

4. The following is an examiner's statement of reasons for allowance: the prior art of record does not teach or fairly suggest optimizing a physical configuration of the plurality of interconnects and components of the integrated circuit based on interconnect channel capacities, scalability of the interconnect channel capacities and isochronous interconnect configuration during designing an integrated circuit in combination of the claim limitations recited in claims 1 and 10. In addition, the optimization is based heuristic knowledge, through monitoring and experience in the utilization of chips, knowledge being derived pertaining to how the components interact, therefore the interconnects have the ability to scale, ability to act as a switch base, and as a packet phase to be optimized so that optimum performance is achieved.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
